### LETTER OF AUTHORIZATION Incidental Take (16-15)

ISSUED: August 5, 2016  
EXPIRES: August 5, 2021

Mr. Brian L. Webb  
Health, Safety, Training, and Emergency Response Manager  
Glacier Oil and Gas (Cook Inlet Energy & Savant Alaska)  
601 West 5th Avenue, Suite 310  
Anchorage, Alaska 99501

Dear Mr. Webb:

The U.S. Fish and Wildlife Service (Service) Marine Mammals Management Office (MMM) has reviewed your request, dated May 9, 2016, for a Letter of Authorization (LOA) for the incidental take of polar bears (*Ursus maritimus*) and Pacific walruses (*Odobenus rosmarus divergens*) during oil and gas production activities associated with the Badami Development Project on the North Slope of Alaska.

In accordance with Marine Mammal Protection Act (MMPA) regulations at 50 CFR 18 subpart J (as described in 81 FR 52276, August 5, 2016), Savant Alaska, LLC (Savant) is authorized the non-lethal, non-injurious, Level B harassment of small numbers of polar bears and Pacific walruses incidental to oil and gas production activities associated with the Badami Development Project on the North Slope of Alaska. Exploration and development activities will require a separate authorization.

#### **Project Description**

A detailed description of the proposed activities is provided in Savant's LOA request dated May 9, 2016, and in the Badami Development Project plans of operation and development, and plan of operation amendments. The Savant oil and gas production activities are ongoing and expected to continue through the life of the regulations.

#### **Terms and Conditions**

1. All Savant employees, contractors, and personnel performing activities for the project described above must observe and carry out all applicable terms and conditions set forth in 50 CFR 18 subpart J (as described in 81 FR 52276, August 5, 2016). Mitigation, monitoring, and reporting requirements are described at 50 CFR § 18.128. Monitoring reports shall be

submitted to the Service MMM via email at fw7\_mmm\_reports@fws.gov. An annual monitoring report shall be submitted to the Service MMM by January 15<sup>th</sup> of each year.

2. The Savant's *Wildlife Awareness and Interaction Plan with Detailed Bear Interaction Plan, Badami Unit Production Operations 2016 - 2021* (May 2016) is approved and incorporated in this LOA by reference. Project activities must be conducted in accordance with this plan. A copy of the plan and this LOA must be kept on-site and available for reference by all personnel.
3. All personnel shall limit encounters with polar bears by being observant of approaching bears and by allowing bears to pass unhindered when possible. If a polar bear interaction escalates into a life threatening situation, section 101(c) of the MMPA allows, without specific authorization, the take (including lethal take) of a polar bear if such taking is necessary for self-defense or to save the life of a person in immediate danger, and such taking is reported to the Service as soon as possible and not later than 48 hours after the incident.
4. A polar bear den detection survey shall be conducted each year prior to activities occurring in polar bear denning habitat during the maternal denning period (November to mid-April). All personnel must use caution when operating near polar bear denning habitat during the denning period.
5. The Service must be notified of changes in the project, including changes to activities, locations, or methods, prior to their implementation. Such changes may invalidate this LOA unless approved in writing by the Service.

Per the *Intra-Service Biological Opinion for Issuance of 2016-2021 Beaufort Sea Incidental Take Regulations* (July 27, 2016) the Service concluded that issuing this LOA is not likely to jeopardize the continuing existence of polar bears and Pacific walrus and is not likely to adversely affect designated polar bear critical habitat. This LOA also serves as an "Incidental Take Statement," which is required by the Endangered Species Act in order for incidental take to be authorized.

Should you have any questions regarding this LOA and the required terms and conditions, please contact Christopher Putnam at (907) 786-3844 or Kimberly Klein at (907) 786-3621, or by email at christopher\_putnam@fws.gov or kimberly\_klein@fws.gov.

Sincerely,

  
Chief, Marine Mammals Management
